

Dear Business Owner,

We at People Driven Credit Union are so excited to announce our new, comprehensive offering of commercial products and services. We are also proud to introduce our team of experts who can advise you and provide guidance in getting these services set up and working to assist you in better managing your businesses.

First, we have a full line of commercial accounts and loan products, including business savings and checking accounts on the deposit side and a wide variety of loan offerings to finance your commercial buildings, investment properties, construction projects, or company vehicles. We can also support your need for operating cash with our commercial lines-of-credit or credit card products.

Second, we are now offering a full line of treasury management services to help you manage your inbound receipts and outbound payments and reduce fraud. These services include automated clearing house products, wire transfers, remote check deposits, payroll administration, and fraud protection services. We offer other services as well, but these are some of the most popular with small businesses.

Finally, we can support your business accepting and managing credit and debit card payments, along with Apple, Google and Samsung Pay services.

We have assembled a team of industry experts to assist you with all your account and commercial lending needs. If you have an interest in our treasury management services, you may contact anyone on our team and they will direct your inquiry to our Treasury Management Officer.

We are eager to talk with you and elevate your business to the next level.

Contained in this mailing, you will find more information about our business products and services. If you have any questions regarding this information, please call us at (844) 700-7328 and we will be happy to assist you.

Sincerely,

Renee DeMarco
President/CEO
